#1 Design-Build Projects in Ghana and Kenya

Architects: Ellen Rouwendal & Laura Strähle

(c) Laura Strähle

Katharina Kohloser is going to talk about her experience working on two design-build projects in Ghana and Kenya.

Whilst strengthening skills and labor by involving the local community the buildings made out of rammed earth and bamboo created new opportunities for their daily lives. The architect emphasizes that we need to trust much more in our intuitions as well as in the strength of our choices.
