Submission of the title of your Diploma thesis / Master's thesis 6 months before the planned date of your board examination, including your student data protocol and recognition notifications (if applicable) to the Admission and Examination Department.

RESEARCH-BASED / ARTISTIC* DIPLOMA THESIS / MA-THESIS*

As may be the case, changes in the title of your thesis have to be brought to the Admission and Examination Department's attention until the registration for your final board examination, i.e., the submission of your Diploma or Master's thesis.

If a topic is worked on jointly by several students, the respective areas of responsibility must be clearly indicated in order for supervisors to evaluate each part (and student's contribution) separately.

An artistic Diploma / Master's thesis needs to include not only the artistic part – being the main focus – but also a written part.

Language of your Diploma thesis / MA-thesis: _____

Title of your Diploma thesis / Master's thesis:

The task must be selected in such a way that it is possible and reasonable to complete it within six months. The written part of the artistic Diploma thesis / Master's thesis must include the specified topic. The topic is printed on the Diploma / Master's examination certificate.
